DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This two story high, three bay wide house stands in the middle of a row of fifteen similar rowhouses. Built of brick laid in running bond, this house remains in the most original condition of the group.

Three wooden steps lead to the entrance on the right. To the left are two segmental arched basement windows with wooden sills and brick lintels.

The first floor entranceway, like all other wall openings has^s segmental arched, splayed brick lintels. The entrance is filled with an aluminum and glass storm door and is surmounted by a rectangular transom. The two windows to the left are tall and slim and are filled with double hung windows with 1/1 lights.

The second floor has two shorter, wider windows set symmetrically on the facade. Windows are double hung with 1/1 lights.

A row of decorative brick corbelling is set below the cornice, which is ornamented with a row of dentils, and which is terminated on either end by brackets. The flat roof is gently sloped to the rear.

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

The residences of Sharp-Leadenhall are modest, but they display a significant degree of variety on the street side. Even with the advent of formstone, the array of styles and laying patterns used have served in some cases, to augment rather than diminish that variety.

110 Burnett Street is the only house in its block to be free of formstone. The fenestration, with three bays on the first floor and two on the second is notable, as is the corbelled brick cornice.
